

'Harold' & Marion McVeigh

Real name LoLak Daxkor 0204147 August 27, 1979 purebred

I bought Harold without ever seeing him over the phone. I was so excited..I was getting a Rose Grey Arabian Stallion that was 11 months old. The day they delivered him, my excitement soon turned to tears. When they unloaded him out of the trailer, he was so ugly and scrawney. The only thing big on him was his stomach, cause he'd never been wormed and half his hair was gone from ring worm. My friends and family were concerned to see me spend any time or money on him. Wayne, my husband, came home, got out of his truck, and said "Weird Harold!" That's how he got his name.

Harold just goes to show money, time and alot of love can go a long way. He was very slow to mature, I didn;t start riding him until he was four and he waited until five to do his first competitive ride.

Harold has brought me so many happy memories, enjoyment, & relaxation. Some of the highlight were my first Blue, getting ask to represent UMECRA at the Midwest Horse fair, going out to Montana and winng the Big Dry ride plus veternaire choice. Also completing and winning both his first and second 100 mile rides he went on in 1989. Last but not least this year finishing my 1000mile and making Top Ten.10. I may ride other horses in the future, but there will never be another 'Harold' .
