#### Letter from the President....

Convention time is almost here. I hope most of you are planning on attending. The agenda's full of some great speakers. We have our annual meeting, WITHOUT a super packed agenda as of now. So there should be time for what we all want to do at these conventions - talk to our fellow distance riding friends! I never feel that there's enough time for leisurely conversation at our meetings. Make sure you say "Hi" to someone you don't know yet! Talk about your horses, dog, trailer, favorite ride in your state, a new ride you tried this year. I look forward to seeing you all in Madison! Theresa Meyer -

UMECRA President - Theresa

Congratulations to all who are receiving awards for 2013. Awards are given out at convention and are never/not ever mailed. If you cannot attend our wonderful convention PLEASE make arrangements for someone to pick up your chevrons and awards. The committee thanks you! – Max

# RULE CHANGE PROPOSALS - marked in Bold Italic.

#### **UMECRA GENERAL RULES**

#### 2. Management Requirements:

M. There shall be weight divisions for endurance and competitive: Lightweight - 179 185 pounds and under; heavyweight - 180–186 pounds and over WITH TACK. Any rider competing as a heavyweight may be required to prove their weight.

(Rule changes suggested by UMECRA members – conforms UMECRA lightweight to AERC featherweight and lightweight to and UMECRA heavyweight to AERC middleweight and heavyweight to UMECRA heavyweight.)

- Revisit the stallion rule
  - If a stallion is confined to a pipe corral- do they still need to be tied?
- If a stallion is high-tied- how do you follow the rule?
   UMECRA GENERAL RULES

## 4. Rider Requirements

K. Stallions must be double tied (two halters & two lead ropes tied to two distinct tie points) to trailer, hitching post, or high tie when not being ridden or handled. They may be tied with a single halter and lead rope if also enclosed in a charged electric fence or in a secure pen provided by campground. Stallions must be marked with a yellow ribbon on the bridle or forelock and tail at all times. Alternative containment options may be approved by Ride Management.

 There is no consequence listed in the rule book for a competitive rider who breaks a requirement rule. Additional rule suggested:

\*\*\*\*\*\*\*\*\*\*\*

### **Competitive Rules**

- 3. Rider Requirements
- H. The penalty for failing to follow the above requirements; completion only, miles only or disqualification.
- Re-evaluate the 'Boot' rule for competitive rides; some of the new hoof boots go above the coronet

band and results in point deductions. (Riders requested change.)

### **Competitive Rules**

### 3. Rider Requirements

B. If boots, bandages or wraps are used, the horse shall be penalized two points per leg per day. Boots designed to protect the sole of the hoof and their permanent attachments, are permitted and shall not be penalized. Any material at or above the cornary band will result in a 2 point per leg per day deduction. The judges may request to observe the area covered by the attached strap, keeper or gaiter at any time. If boots are not declared, see (H).

#### Fun rides:

- There were a few rides who hosted a fun ride this year; these rides were run with LD rules. If a Novice rider would ride one of these rides, he/she would not receive any novice points. UMECRA insurance may not cover these rides as they are not sanctioned events. Should these rides be allowed?
- A discussion was held regarding this topic. The consensus was that these rides should not be held in conjunction with a UMECRA ride if the ride is covered under UMECRA insurance.

# Sanctioning Requirements 2. UMECRA Rules

O. Any UMECRA sanctioned ride with ride miles less than 25 miles, must follow the established UMECRA Novice rules.

# Other items to be discussed at the morning BOD meeting:

- Rules that cover protests and the timeliness of decisions by the board following the protest
- Use of battery operated Heart Rate Monitors at vet checks
- Lameness completion criteria for competitive horses; this item <u>may</u> also be discussed at the general UMECRA meeting.

These issues will be agenda items at the morning meeting and may or may not be ready for member voting by the afternoon.

### 

Every UMECRA member is assigned a unique membership number that remains the same year-to-year. Please be sure to record your UMECRA member number on your ride entry form at ALL rides! Your UMECRA membership number will be used to ensure the correct rider receives the correct points. If you do not use your UMECRA membership number, you may not receive the correct points! Ride managers are asked to record UMECRA rider numbers when submitting the ride results; they cannot report those numbers unless the members record them on the entry forms.

Membership cards are mailed every year to members upon renewal of the membership. The card is a 'receipt' of your paid membership. If you have any questions about your membership, you can contact Jill at: ifeller@nconnect.net or 920.948.9502 with any questions.

# Horses Require Extra Attention when Temperatures Plummet

By Karen Waite, PhD/Michigan State University Extension Jan 03, 2014

The next few days will bring freezing weather to many parts of the country, and with that comes the need for extra care and attention for horses, donkeys, ponies, mules, and any other outdoor animals.

As the temperatures decrease, a horse's feed requirements increase. Allowing horses free choice to good quality forage (hay) is the surest way to ensure that they consume enough energy, and the process of digesting forage will actually produce heat. Horses will typically consume 2 to 2.5% of their body weight in forage each day; that would be 25 pounds per day for a 1,000 pound horse. Winter pasture alone will not provide enough forage to sustain a horse and, therefore, must be supplemented with hay and/or grain.

The growing season some parts of the nation had last year produced overly stemmy or fibrous hay with a lower digestibility. As a result, making certain that horses are supplemented with grain when fed lower quality hay will help them maintain body weight and condition, a key factor in withstanding cold temperatures.

Constant access to clean, fresh water at 35 to 50°F is an absolute necessity to keeping horses healthy. This can be achieved via heated tanks or buckets, or by filling a tank, letting it freeze, cutting an access hole in the frozen surface, and then always filling the tank to below the level of the hole from that point on. This provides a self-insulating function and will typically keep the water below from freezing. Regardless of the method you choose, it's important to check tanks frequently to ensure your horse's water remains free of ice.

Additional ways to keep horses comfortable in cold weather include making sure they have access to shelter. A well-bedded, three-sided shed facing south or east will typically provide adequate protection from wind and snow, as can appropriate bluffs or treed areas.

When the temperatures get colder, mature horses will not typically move around much in an effort to conserve energy. Making an attempt to keep hay, shelter, and water fairly close together can limit the energy expenditure required, thus conserving body condition.

And, finally, keeping horses at a body condition score of 5 or 6 (on a 9-point scale) will help prevent surprises when horses shed their winter hair in the spring, and improve conception rates for those choosing to breed.
