UMECRA Convention

Don't forget to renew your UMECRA membership for 2024!

You must have your membership current to accumulate points and miles towards year end awards.

Ride Sanctioning – How it Works

Have you ever wondered how a new ride is added to the schedule after the ride calendar is approved at the Annual Meeting?
When a new ride requests sanctioning with UMECRA after the schedule is approved, there are some basic rules and procedures to be followed.

If the ride has been sanctioned the previous year, ride managers must announce their mileage to the UMECRA Sanctioning Coordinator at least seven (7) days before the

annual meeting; otherwise, they will receive the same mileage as the previous year. Corrections and/or adjustments can be made during the annual meeting before voting to approve the schedule.

What about changes in events and distances? Once the ride schedule has been approved at the annual meeting, changes to those approved rides can be made up to 60 days in advance of the ride, but will require approval of the executive board, or as early as possible in emergency situations.

Once the schedule is finalized at the annual meeting, no new rides may be scheduled except with Board and ride manager approval via electronic ballot with a majority of 2/3rds of the managers responding within ten (10) calendar days. (One vote per ride). Rides seeking approval by Board vote must meet one of the following criteria:

- 1. Be proposed for an open date
- 2. Be 501 miles or more from an already scheduled ride (as measured using Mapquest.com)
- 3. If less than 501 miles from an already scheduled ride (as measured using Mapquest.com), have written approval of those ride managers.

This is the process that was followed in order to add Detroit Horse Power ride on August 8, 9, 2024. The distance between Detroit Horse Power and Louise Reidell Memorial ride was between 498 and 501 miles depending on the route selected. Elinore Tonsor, RM for Louise Riedell Memorial ride graciously agreed to allow sanctioning of Detroit Horse Power to move to a vote of all RM's. The vote passed and the ride was added to the schedule.

Every athlete deserves to be safe and supported. US Equestrian is committed to ensuring that every athlete gets the opportunity to enjoy equestrian sports free from abuse.

US Equestrian encourages all parents/guardians and our minor athletes to take the free training courses that are offered by the U.S. Center for SafeSport. These courses are tailored for each group. The Parent's Guide to Misconduct in Sport is a 30-minute training video that educates parents on recognizing, responding to, and preventing abuse and misconduct in your child's sport setting. You will come away equipped with information and tactics to minimize risks of harm, You will also learn what helps create a safe sport environment for your children and what resources are available for reporting.

In addition to the training module for parents/guardians, we encourage

viewing The Center's webpage for Parents and Guardians. This webpage includes important topics and resources, including the Parent and Guardian's Handbook for SafeSport. This handbook provides information and resources to help parents understand the different types of abuse and misconduct, as well as provides tools and tips for talking to their child about sexual and emotional abuse.

The U.S. Center for SafeSport also provides training modules for minor athletes.

If you are between the ages of 13-17, the Center provides a 15-minute course that is focused on bullying prevention, supporting friends who have experienced abuse or misconduct, and resources for reporting.

For those athletes between the ages of 5-12, the Center provides a 15-minute course that helps minors know the difference between discipline and abuse and encourages them to reach out to a trusted adult when something is not right. It also stresses the importance of positive sportsmanship and having a healthy sport environment focused on fun and safety.

To take any of the trainings listed above, please view the link below.

The UMECRA Board of Directors has agreed to temporarily suspend the International Committee until there is some action and/or decisions from AERC and USEF. Until that time, there is no action or decision required from UMECRA. An announcement will be made when the time comes to reconvene the committee.

Comparison of Former vs New Point System			
Example #1 (25 mile LD / Comp)	Old	New	
LD/Comp - 1st	11	36	
LD/Comp - 2nd	10	35	
LD/Comp - 3rd	9	34	
LD/Comp - 4th	8	33	
LD/Comp - 5th	7	32	
LD/Comp - 6th	6	31	
LD/Comp Completion	5	30	
Rider #1 rides one day at 10 rides,			
places 1st in all rides (total 250 miles)	110	360	
Rider #2 rides 2 days at 10 rides,			
places 6th in all, then rides the 2nd day			
and completes. (Total 500 miles)	160	610	

The new point system rewards riders who ride more rides which directly benefits the rides and ride organizations

The next 2 examples look at Endurance where one rider focuses on riding 50-mile events and the other mixes distances. The 2 riders ride the same number of miles in both examples, but Rider #2 rides fewer rides due to the increased distance.

F (- #0 (F I)	OL:I	Maria
Example #2 (Endurance)	Old	New
END - 50 - 1st	22	72
END - 50 - 2nd	20	70
END - 50 - 3rd	18	68
END - 50 - 4th	16	66
END - 50 - 5th	14	64
END - 50 - 6th	12	62
END - 50 - Completion	10	60
End - 100 - 1st	44	144
End - 100 - 2nd	40	140
End - 100 - 3rd	36	136
End - 100 - 4th	32	132
End - 100 - 5th	28	128
End - 100 - 6th	24	124
End - 100 - Completion	20	120
Rider #1 - 8 rides of 50 miles each, 1st		
place at all rides (total 400 miles)	176	576
Rider #2 - 4 rides of 50 miles each		
earning 1st place, and 2 rides at 100		
miles with 1st place (total 400 miles)	176	576

In Example #2, there is no difference between the 2 point
systems.

Example #3 (Endurance)	Old	New
Rider #1 - 8 rides of 50 miles each, 1st		
place at all rides (total 400 miles)	176	576
Rider #2 - 4 rides of 100 miles each, 2		
are 1st place, 2 are completions (total		
400 miles)	128	528

In Example #3, there is a significant difference in points for Rider #2, whose point gap is much less under the new system. This reduces the impact for riders who want to move up in distance but will need to ride fewer rides over the course of the season.

Conclusion: the updated points system rewards riders for successful completion of mileage while still giving credit for placings.

Of course, there are an infinite number of variations in points that can be achieved for our members. These examples are intended to provide context in the application of the new point schedule.
